

Water heaters with intellectual functions

Water heaters SI series – are the modern stylish solution for the effective water heating with the possibility of the operation modes distant control and water disinfection function by Wi-Fi. The products have the flat design with the universal mounting possibility. The ideal solution for hard water heating is dry tubular heating elements "X – Heat", which ensure the absence of scale on heating elements, maintenance without draining water, it helps to extend the service life of the heating elements and the device itself.

The electronic anode ensures continuous operation throughout the entire life of the water heater and also does not require annual replacement and maintenance.

SI EEC

Electronic anode – efficiency of corrosion protection increased by 10 times

- Continuous operation of the water heater throughout the entire life
- Does not require annual replacement and maintenance

Dry heating elements - the Ideal solution for hard water

- Two dry heating elements are in a protective flask and do not come into contact with water
- The absence of scale on the heating elements ensures the maximum service life of the water heater
- Maintenance of heating elements without draining water and dismantling the water heater

Universal installation

SI water heaters can be installed both vertically and horizontally, what allows them to be placed even in confined spaces.

Innovative water heater with Bluetooth speaker

Do not deny yourself the pleasure – your favorite music is always with you.

Increased thermal insulation

Even more energy savings by heat saving.

Technical characteristics

Characteristic/Model	EWH 30 SI EEC	EWH 50 SI EEC	EWH 80 SI EEC	EWH 100 SI EEC
Capacity, L	25	41	65	81
Power of the heating element, kW	0,7/1,3/2,0	0,7/1,3/2,0	0,7/1,3/2,0	0,7/1,3/2,0
Current voltage / frequency, V/Hz	230/50			
Rated current, A	8,7			
Heating time from 10 to 75 °C, min	57	93	148	182
Max. working pressure, Bar	6			
Ingress protection class	IPX4			
Electrical protection class	I			
Appliance dimensions (WxHxD), mm	435x635x260	435x970x260	555x920x350	555x1135x350
Package dimensions (WxHxD), mm	680x485x280	1010x485x280	970x605x362	1185x605x362
Net weight, kg	15,3	22,6	29	33,5
Gross weight, kg	17	25	32,6	37
